## ABOUT AMERICAN WINDS

American Winds is passionate about aviation. It prides itself on personalized flight training and our state-of-the-art air charter service. American Winds Flight Academy (AWFA) is one of only two FAA (Certified 141) flight schools in Northeast Ohio but that's not what sets us apart from other flight schools. We can provide you with an affordable, flexible and convenient means of fulfilling your personal aviation goals.

American Winds is the realized dream of President Mike Kolomichuk and Chief Flight Instructor, Denise Hobart. In January 2002, they opened their doors and a few months later received certification, making them the only FAA-licensed flight school in Akron, Ohio.

## MISSION STATEMENT

American Winds Flight Academy strives to build, operate, maintain, and preserve a profitable high quality, highly respected aviation training facility.

## FEATURES

American Winds Flight Academy is the premier flight training facility in Northeast Ohio because

- ◆ Open seven days a week. Whether you are a student or want to charter an aircraft we can meet your scheduling needs.
- ◆ An immaculate fleet of aircraft with new engines, new avionics, new paint and new interiors! Our aircraft are subject to rigorous inspections under Federal Aviation Regulations (FAR) Parts 135 & 141.
- ◆ A very well-stocked pilot shop, with more than 150 items and VFR & IFR FAA charts for the eastern part of the U.S.A.

## Team

Full-time flight instructors who have decades of combined flight experience and have completed all of the FAA standardized testing. Our ground school is taught in a classroom setting by experienced instructors and you can be assured of their professionalism and expertise.

## Training Methodology

During extended hours they operate 12 hours a day. Its full-time flight instructors are always available to accommodate your schedule. A one-on-one approach that gets results! A very well-stocked pilot shop, with more than 150 items and VFR & IFR FAA charts for the eastern part of the U.S.A. Computerized testing (CATS) on site, enabling you to take all FAA tests and receive instant results.

## Fleet

Cessna 150, Cessna 172 SP, Piper Arrow (PA 28-200) Piper Warrior, Piper Seneca II

## Location

American Winds is conveniently based at the Akron Fulton Int'l Airport (AKR) in Akron, Ohio. AKR is 28 NM Southeast of Cleveland.

## FRUITIVE - AWFA TRAINING PROGRAMS

AWFA offers individual courses and custom designed packaged programs. For the Indian students, packaged programs are offered to save money and time. As a pilot, you have to comprehend distances and measurements at a moment's notice. Pilots must also be capable of communicating precisely and clearly with passengers, air traffic controllers, flight attendants and other pilots. In the course of work Pilots operate computers and automated instruments continuously. So to become a Pilot, basic knowledge in Mathematics and Physics, sound English with good communication skills, a very good technical aptitude and of course good health are mandatory.

## ACCELERATED PACKAGE PROGRAM

FRUITIVE and AWFA has designed a training package exclusively for Indian Students. Indian students need to complete training in a faster time frame will benefit from accelerated program. This program include all of your training, charts, books, examiner fees, housing, transportation and conversion requirements as per DGCA, India.

The accelerated package will be completed within 8 months. Our Accelerated Training Course is designed to take a typical student from the very beginning to completion in the shortest time possible. The courses are not some watered down version, but rather condensing all of the same materials and skill training into a shorter span of time. A typical accelerated student can expect to be a "full time" student over the entire span of the course. It is an intense immersion into the world of Flying, a sort of "Aviation Boot Camp".

AWFA trains Indian students to meet FAA pilot certificate requirements. However, once a student returns to India, should apply for conversion of foreign license to an Indian license with DGCA. There will be certain exams that have to be passed to do the appropriate conversion. FRUITIVE takes care of the ground school requirements for conversion.

## REQUIREMENTS

- ◆ Age : 18 Years.
- ◆ Educational Qualifications: A pass in HSC (Maths / Physics) or equivalent.
- ◆ You must be able to read, write and understand the English language.

## COMMERCIAL PILOT TRAINING PROGRAM

For becoming as a Pilot, one should undergo this program. The Commercial Pilot Certificate permits pilots to fly aircraft for compensation or hire. Commercial pilots are entitled to perform a variety of commercial activities. Additional training and certification is needed for "Air Taxi" and "Air Carrier" operations such as charter and airlines and this training varies according to the flights models.
