

## ABOUT ACE PILOT AVIATION ACADEMY

Ace Pilot Aviation Academy Inc., is a duly organized corporation existing under and by virtue of Philippine Law registered with the Securities and Exchange Commission recognized and authorized by the Civil Aviation Authority of the Philippines with Air Agency Certificate No. 01-07 to facilitate ground, flight and flight simulation trainings.

ACE Pilot Aviation Academy is the only Flight School in the Philippines adopting the FAA Industry Training Standards (FITS) integrated with Line Orientation Flight Training (LOFT). The integrated training program of the academy is supplemented by state of the art training materials and references augmented by seasoned and experienced airline Instructors.

Ace Pilots Aviation Academy Inc. owns and operates a fleet of aircraft, such as Cessna 152, Cessna 172, Piper Seneca and Piper Aztec. The Academy operates a Multi-Crew Cooperation and Crew Resource Management (CRM) standard operating procedures applied to its LOFT program. The academy utilizes an Elite Flight Training Device for Instrument competency which provides both single-engine and multi-engine flight simulation, it is the primary training device for Ace Pilots Aviation Academy Inc. in observing the MCC and CRM Standard Operating Procedures in the training program.

During its existence, the Academy has accrued a monthly average of 500 hours flight training time. And has produced graduates in its Professional Pilot Programs both on Ab-initio and Customized courses.

The Academy's core group has a combined 50 years aviation experience both in General Aviation and the Airline Industry. The management of the academy is under the stewardship of Capt. Paramjit Hehar an FAA and Canadian CAA ATPL holder with over 4,000 flight hours experience ranging from light single engine aircraft, Turbo-Prop Twins and Turbo Jet aircraft.

The Academy's pool of instructors is the industry's top gun in aviation training. All Instructors have over a thousand flight hours experience both in domestic and international flights, with training overseas.

The Academy's graduates are the most sought among its contemporary due to its exemplary performance both in theoretical knowledge and flight checks. Most of the academy's foreign students who completed and pass the academy's standards have been hired by airlines in their respective countries such as the prestigious King Fishers Airline, Indigo Airlines and Air India. It is the academy's pride and joy receiving all the compliments from their officers regarding their performance in handling the

aircraft, their training, skills and attitudes that they share and show to their colleague and subordinates. That is one of the schools trademarks because all students, upon their entry in our institution are implemented with the rule of learning flying by heart and to interact with co-students professionally with integrity and respect.

## FRUITIVE-ACE TRAINING PROGRAMS

ACE offers individual courses and custom designed packaged programs. For the Indian students, packaged programs are offered to save money and time.

As a pilot, you have to comprehend distances and measurements at a moment's notice. Pilots must also be capable of communicating precisely and clearly with Passengers, Air Traffic Controllers, Flight Attendants and other pilots. In the course of work Pilots operate computers and automated instruments continuously.

So to become a Pilot, basic knowledge in Mathematics and Physics, sound English with good communication skills and intention to learn computers and of course good health are mandatory.

### Accelerated Package Program

The international students especially Indian students, who need to complete training in a faster timeframe will benefit from accelerated training programs. These programs include all of your training, charts, books, examiner fees and even your lodging for the duration of your training.

The Accelerated Training Courses are designed to be completed within 8 - 10 months. It is a full time program and the student is expected to put their efforts fully at all times.

ACE trains all students, both foreign and domestic to meet Philip-pines CAR Pilot certificate requirements. However, once a student returns to India, should apply for conversion of foreign license to an Indian license with DGCA. There will be certain exams that have to be passed to do the appropriate conversion. Fruitive Aviation takes care of the ground school requirements for conversion.

### Requirements

- ▶ Age : 18 Years.
- ▶ A pass in HSC (Math's/Physics) or equivalent.
- ▶ You must be able to read, write and understand the English.

### Commercial Pilot Training Program (CPTP)

For becoming as a Pilot, one should undergo this program. The Commercial Pilot Certificate allows pilots to fly aircraft for compensation or hire. Commercial pilots are entitled to perform a variety of commercial activities. Additional training and certification is needed for "Air Taxi" and "Air Carrier" operations such as charter and airlines and this training varies according to the flights models.
