## ABOUT ISLAND AIR FLIGHT SCHOOL

Island Air Flight School, a premier Flight Training School is based in Toronto, Canada. Island Air has been training pilots in various skills, from Recreational to Advanced Commercial and Multi-Engine I.F.R. Island Air employs professional and experienced CFIs and equipped with all modern avionics along with an excellent environment for ground schooling. It offers all levels of Pilot training. Ultra-Light License, Private Pilot License, Commercial Pilot License, Instructor Rating, Multi-engine Rating and Instrument Rating at unbeatable prices.

It is committed to maintain a high standard of training excellence as per Transport Canada Certified - Canadian Air Regulation Standards (CAR).

### Professional Charter Service

Located on Toronto City Centre Airport, its charter service can assist businesses and professionals searching for a convenient mode of transportation from downtown Toronto to just about anywhere in Ontario and neighbouring US States. The advantages of flying with centrally located company are unlimited

### Convenient

Because it is so close to downtown, everyone can easily avoid the time and cost associated with the main Toronto terminals as well as the ticket counter line-ups, inconvenience of boarding gates and misplaced luggage. Flying smaller airplanes not only give us access to a greater number of airports. But also the freedom to schedule flights according to your schedule.

## FACILITIES

Island Air provides numerous opportunities for the students upon successful completion of the pilot training including placement options, career tracking and guidance to ensure the student is on the "fast track" to a long and successful career as a professional pilot. Island Air has collaboration with Jet Direct-a Chartered Flight Operator for the placement of the students.

### Staff

Island Air has qualified and well experienced 6 Certified Flight Instructors. They are backed by experienced management staff to offer you a complete training.

### Ground School

Island Air uses the modern teaching aids and provide top quality ground training and utilizes the Computer Based Instruction program. The program pairs the "book knowledge" that you will need to pass the written exams, with the practical aspect of mastering the art of flying the airplane. Your progress is tracked and documented which ensures that your training will continue "on course" throughout.

### Aircraft

Island Air is equipped with modern avionics. They have aircraft that fit all needs, from basic training aircraft to advanced multi-engine turbo prop equipment far exceeding the CAR standards.

- ▶ Cessna C150 2 nos
- ▶ Cessna C172 2 nos
- ▶ Piper Aztec 2 nos
- ▶ Piper Seneca PA 34 1 no
- ▶ Flight Training Device (FTD) 1 no

Single Engine training is being given in Cessna C150 and C172. Multi-engine training is being given in Piper Aztec and Piper Seneca PA-34 Airplanes.

### Air Field

Island Air operates from the Toronto Airport. A well equipped modern Air Control Tower with VFR and IFR facilities, 2 Runways all makes the training a complete one with the experience of flying into an International Airport.

### Housing

Island Air provides furnished apartments for short term housing for students. Transportation fee is included in the package.

### Other Programs

Island Air also offers Certified Flight Instructor(CFI)Programs, Sea Plane Rating and other customized programs. You can always contact the admission department by giving your present levels and the required ratings for planning your admission.

## FRUITIVE-ISLAND AIR TRAINING PROGRAMS

Fruitive & Island Air offers individual courses and custom designed packaged programs. For the Indian students, packaged programs are offered to save money and time.

As a pilot, you have to comprehend distances and measurements at a moment's notice. Pilots must also be capable of communicating precisely and clearly with passengers, air traffic controllers, flight attendants and other pilots. In the course of work Pilots operate computers and automated instruments continuously.

So to become a Pilot, basic knowledge in Mathematics and Physics, sound English with good communication skills, a very good technical aptitude and of course good health are mandatory.

### Accelerated Package Program

The international students especially Indian students, who need to complete training in a faster timeframe will benefit from accelerated training programs. These programs include all of your training, charts, books, examiner fees and even your lodging for the duration of your training.

The training program will be completed within 8-10 months. It is a full time program and the student is expected to put their efforts fully at all times.

SA&IA trains all students, both foreign and domestic to meet CAR Pilot certificate requirements. However, once a student returns to India, should apply for conversion of foreign license to an Indian license with DGCA. There will be certain exams that have to be passed to do the appropriate conversion. FRUITIVE takes care of the ground school requirements for conversion.

### Requirements

- ▶ Age : 18 Years.
- ▶ A pass in HSC (Math's/Physics) or equivalent.
- ▶ You must be able to read, write and understand the English.

### Commercial Pilot Training Program (CPTP)

For becoming as a Pilot, one should undergo this program. The Commercial Pilot Certificate permits pilots to fly aircraft for compensation or hire. Commercial pilots are entitled to perform a variety of commercial activities. Additional training and certification is needed for "Air Taxi" and "Air Carrier" operations such as charter and airlines and this training varies according to the flights models.
